## LABOR. OPERATORS STAND FIRM.

Will Not Surrender to  
Miners' Union.

Unmoved by President's  
Mediation.

Only Way to Settle Strike Is  
for Miners to Work  
Independently.

(BY DIRECT WIRE TO THE TIMES.)  
PHILADELPHIA, Oct. 2.—[Exclusive Dispatch.] President Baer of the Philadelphia and Reading Railroad Company declares that the railroad presidents will not be influenced by President Roosevelt to make any concessions to the miners. They are in this fight to win, and will never open the mines until the miners agree to return to work unconditionally. Principle is at stake, he says, and the presidents are determined to make a thorough job of the present fight.

President Baer says he holds the pledges of all other presidents of the coal roads that they will resign if J. P. Morgan uses his power to force the railroad and the mine operators to give in to the strikers. Under these circumstances the conference with the President is not likely to result in a victory for the strikers.

**SENTIMENTS CHANGED.**  
STRIKERS MUST SURRENDER.  
(BY THE ASSOCIATED PRESS—P.M.)  
SCRANTON (Pa.) Oct. 2.—Sentiment among representatives of the coal operators has undergone a change since yesterday's conference with the end of an intermediary to settle the strike. Yesterday they said the only effect of the President's action would be to put off the surrender of the miners.

These same men today say the White House conference will hasten the end of the strike, that it will show the miners that no third party, not even the President of the United States, can budge the operators from their position, and that once this is realized the strikers will win.

A prominent individual coal operator said today that he stood ready to guarantee that the operators would agree to a sliding-scale basis of pay, commensurate with the cost of coal, and that the miners would agree to put up bonds to indemnify the operators for damages resulting from strikes.

No disorder was reported today, and no claims from either side as to gains or losses to the working forces at the collieries. All activity centered in tomorrow's conference.

It is now almost certain that John Mullen, non-union man who caused a riot over by a trolley car at Smithville last night, was stunned or killed and then placed on the track.

**UNPLEASANT SURPRISE.**  
FOR RIOTOUS STRIKERS.  
(BY THE ASSOCIATED PRESS—P.M.)  
SCRANTON (Pa.) Oct. 2.—A crowd of strikers at Throop tonight was given an unpleasant surprise. They attacked a train going to the Pancoast colliery, which they supposed contained non-unionists, but which in fact had aboard two companies of soldiers. The train was quickly stopped, the water piled up and captured eight of the mob, all foreigners. They were taken to this city and sent to jail in default of \$500 bail each.

**UNSHAKEN TRUTH.**  
RIGHT MUST PREVAIL.  
(BY THE ASSOCIATED PRESS—A.M.)  
NEW YORK, Oct. 2.—At today's session of the semi-annual meeting of the New England cotton manufacturers in this city, a paper dealing with the labor question was read by Charles W. Bennett of North Adams, Mass. Mr. Bennett said among other things:

"Carroll D. Wright, in his report on the coal strike situation, gave as the fundamental reason for the lack of confidence between employers and employees, established confidence between the labor and the management is a valuable asset for any company. Exact justice to every employee, and no compromise, no overreach, no law-breaking incident to counteract the law-making, no effort between employer and employee, one

First—The railway presidents will have nothing to do with President Mitchell, or the Mine Workers' Union as an organization.

Second—But they are willing to agree to a sliding-scale basis of pay, commensurate with the cost of coal, and to put up bonds to indemnify the operators for damages resulting from strikes.

Third—Miners are to return to work at once.

Fourth—Before this tribunal named by President Roosevelt the miners, as individuals, or by representatives other than officers of the United Mine Workers' Union, present their grievances, and the managers of coal companies will do the same.

Fifth—The corporations agree to abide by the findings of this tribunal. Whether or not the President will be willing to entertain this proposition is not known. The proposal is looked upon as a well-calculated effort to render abortive tomorrow's conference.

great truth stands unshaken and unremoved, viz: That ultimately it is a question of right and wrong, and it will never be settled by greed and violence on either side."

**ALABAMA COAL STRIKE.**  
(BY THE ASSOCIATED PRESS—A.M.)  
BIRMINGHAM (Ala.) Oct. 2.—Twenty-five hundred miners in the employ of the Tennessee Coal, Iron and Railroad Company, on orders from the executive board of the United Mine Workers of America, district of Alabama, suspended work today. The suspension is on account of the refusal of the operators to collect for the union the \$1 per week assessment made on all union miners for the benefit of the anthracite strikers in Pennsylvania. It is thought probable that the "Black Creek and Blount mines of the Tennessee company also will be involved if an adjustment is not soon reached. About two weeks ago the Tennessee company declined to withhold the assessment money from the anthracite strikers in Pennsylvania, and the other men at the mine were ordered out. Today a suspension was placed on the Tennessee company's operations at the Blount mine, and the miners of the Blount mine are holding mass meetings at Cardiff today to determine what course they will pursue.

**BIG DEFENSE FUND.**  
(BY THE ASSOCIATED PRESS—A.M.)  
BIRMINGHAM (Ala.) Oct. 2.—The collection of the big defense fund for the anthracite strike, has created a record-breaking business for the money department of the postoffice for the quarter ending yesterday. Receipts for the past three months were \$365,451, an increase over the corresponding period of last year of \$181,877. As high as \$25,000 a day has been cashed for W. B. Wilson, national secretary and treasurer of the Miners' Union, since the collection of the defense fund began.

**BENEFIT AT BUTTE.**  
(BY THE ASSOCIATED PRESS—A.M.)  
BUTTE (Mont.) Oct. 2.—The benefit here in the Broadway Theater for the striking miners in Pennsylvania, under the auspices of the Miners' Union of Montana, was held today. The sum of \$3,000. This sum will be forwarded to the Pennsylvania miners this week.

**ANTI-TRUST LAW.**  
YELLOW JOURNAL INVOKES IT.  
(BY THE ASSOCIATED PRESS—A.M.)  
ALBANY (N. Y.) Oct. 2.—The Albany Journal announced today that it had granted the application of the New York American and Journal that the coal operators be summoned to appear before him, and show cause why proceedings should not be instituted against them under the Donnelly anti-trust law. The hearing will be given in this city October 8.

**COAL FROM NEWCASTLE.**  
LARGE AMERICAN ORDERS.  
(BY THE ASSOCIATED PRESS—A.M.)  
LONDON, Oct. 2.—Several American orders for steam coal were booked at Newcastle yesterday. In fulfillment of one order a steamer was chartered to carry 4,000 tons to New York. The order was placed by the prompt delivery demanded. The Cardiff inquiries for steamers to take Welsh coal to the United States are enhancing freight rates.

**BIG AMERICAN ORDER.**  
(BY THE ASSOCIATED PRESS—A.M.)  
LONDON, Oct. 2.—According to the St. James's Gazette, a Cardiff firm yesterday booked a single American order for 15,000 tons of steam coal.

**COAL FOR EMPLOYEES.**  
(BY THE ASSOCIATED PRESS—P.M.)  
HARRISBURG (Pa.) Oct. 2.—The Philadelphia and Reading Railroad Company announced today that it had agreed to supply one ton of anthracite coal each at \$4.25 per ton in less than ten days.

**STREET-CAR STRIKE.**  
NOT A WHEEL TURNING.  
(BY THE ASSOCIATED PRESS—A.M.)  
NEW ORLEANS (La.) Oct. 2.—Beyond the discovery that a large number of wires had been cut in the upper part of the city, during the night, there were no early-morning developments in the street-car strike. There was, however, a feeling that negotiations between the company and the employees would lead to some plan of arbitration.

**LOCOMOTIVE ENGINEERS.**  
WANT INCREASE OF WAGES.  
(BY THE ASSOCIATED PRESS—P.M.)  
BLOOMINGTON (Ill.) Oct. 2.—Representatives of the Locomotive Engineers are in Chicago to attend a secret meeting of the engineers of the principal roads in the West. The object of the meeting is to draw up formal demand for a 10-per-cent. increase in pay, obeying instructions of the national convention recently held in Norfolk, Va. Engineers say that

in the late years the size of the engines and cars has increased as well as the tonnage of trains, yet the rate of pay is unchanged. They ask for a proportionate increase in wages. Local officials say that the demand for a proportionate increase in wages is not a new thing. While admitting that the contentions of the men are true, they say that freight rates recently have decreased heavily, leaving the earnings practically unchanged.

**ROCK HURLERS.**  
REPRESSIBLE BY SOLDIERS.  
(BY THE ASSOCIATED PRESS—A.M.)  
MT. CARMEL (Pa.) Oct. 2.—Owing to a crowd of unknown men hurling rocks at the deputies at Eiders colliery last night, a company of soldiers was posted at that mine today, while another company was taken to Shamokin on a special train to prevent pickets from preventing non-unionists from going to work at the Reading and other collieries. Two special trains were placed at Reading and North Central railroad stations last night, so that they could be rushed to any of the Northernumberland mines in case mob violence broke out.

**Nothing to Give Out.**  
CHICAGO, Oct. 2.—P. M. Arthur, Grand Master of the Brotherhood of Locomotive Engineers, held a session behind closed doors at the Sherman House last night, and discussed matters pertaining to the strike, and did not care to say anything regarding it. He was the only statement given out.

**SENSATIONAL CRITICISM OF SHIP COMBINE.**  
DEAL WITH MORGAN AROUSED POPULAR DISTRICT.  
(BY THE ASSOCIATED PRESS—A.M.)  
LONDON, Oct. 2.—[Exclusive Dispatch.] The steamship agreement aroused sensational criticism the more so because it was made in the presence of Mr. Morgan entered into all manner of elaborate undertakings with the British ministry without compensation. The agreement was said to be the shape of an undisclosed agreement devised against the public interest. As regards the northern part of the agreement, the British ministry, as against the British taxpayers. At the old rates the admiralty subvention would have been \$400,000, whereas the new agreement would have cost the government \$1,000,000. The public was said to be indignant at the difference of \$600,000. The very class to which Balfour said that the government was resolutely opposed.

**EASY MONEY IN ST. LOUIS.**  
Banker Snyder Was a Good Thing.

Paid Councilmen Well for Their Votes.

Sensational Testimony Given at Trial of One of Boondoggies.

(BY THE ASSOCIATED PRESS—A.M.)  
ST. LOUIS (Mo.) Oct. 2.—When Judge Ryan's court met today the trial of Robert Snyder, banker and promoter, on the charge of bribery in connection with the passage of the Central Traction bill, was resumed. Frederick G. Galt was a member of the City Council in April, 1898, was put on the stand by the State.

In answer to questions by Circuit Attorney Galt, Galt testified that while a member of the City Council in 1898, while the Central and South Traction bills were pending, Mr. Snyder called on him at his residence, having been taken there by Louis Diekmann by appointment. Snyder continued:

"After talking socially about half an hour, Snyder said he lived in New York, that he was a millionaire, and that he was connected with a bank in Kansas City. He was talking about how much money he had. He said he had made a part of it in the real estate boom in Kansas City."

"Then he again spoke of the Central Traction bill, and said he did not want to talk about the matter. He said we were both Masons and could discuss it the same as lodge matters. He said he would like to see Snyder, and he would like to see Snyder, and he would like to see Snyder."

"I told him I had been approached and offered \$50,000 for my vote. He said he would like to see Snyder, and he would like to see Snyder, and he would like to see Snyder."

"Now, I never said, nor have I ever said, that I would vote for the bill. I only said that I would like to see Snyder, and he would like to see Snyder, and he would like to see Snyder."

"Then he told of a package brought to his house the following day by Diekmann and his second meeting with Snyder. At that meeting Snyder said:

"'Uthoff, if you don't vote for that bill I will give you \$10,000. If you do vote for it, I will give you \$20,000. If you do vote for it, I will give you \$30,000. LOCAL SPORTING RECORD.

ACTIVITY AT RACE TRACK.

Horses Speeding All the Day Long.

Dr. Rowell's String in From Chicago.

Walcott and Johnson to Fight This Month—Football and Bowling.

Agricultural Park is becoming a place of greater activity every day, for the time of active training for the coming season is fast approaching. The work is done by both trotters and runners. The gallopers have the track every morning, and in the afternoon the harness horses are brushed around the track, and all that are speeded are said to be in fairly good condition.

The event yesterday at the track was the arrival of Dr. H. E. Rowell with Chicago with a carload of fast horses. There were eleven in all, and eight of these were in the well known string.

They were Don Mot and Candidate, three-year-old bay colts; Champagne, a three-year-old brown filly; the two-year-olds Gus Lanka, Harriet S. and Katie Night; the black four-year-old horse, and the aged gelding, Pat Morley.

The others in the car were Caesar, a well-known stake horse, Walter Cure, Steve Judge's good filly, and Milton Jones's good horse. All of these horses are well known to racing men.

A. Jackson, light-weight jockey, and O. Price, heavy-weight, who will be riding for him, of his string looks better than Don Mot, and it is said that the stable picks this one as the Derby winner. It is possible that his son-in-law, Lester, will ride Don Mot in the Derby.

Along with the carload of horses, a carload of twelve or fifteen runners left Chicago Wednesday night for this city, where they have been racing at Harlem. In this lot were to have been Hugsy Jones's Headwater, Tisona, and the other horses.

Mr. Rowell is due to arrive tomorrow. Ledger's well-known gelding, Bertram, who has run many good races on the Coast, was probably permanently injured about a mile west of Agricultural Park, where he was struck by a traction car. The horse was being exercised, and when the car came tearing along at twenty-five miles an hour, the animal became frightened and backed on the track. Although he exercised as he yelled for the driver to stop the car, he would not stop, and the animal was struck, the hip being knocked out of shape.

Many severe cuts and bruises were inflicted on the animal, and it is believed that he will never be able to race again.

At the track yesterday morning, the race was a gelding and not a "speedy mare," as several local papers have stated. It was a gelding, and he was put into shape, if ever.

C. H. Harrison's black gelding, "Blackstone," who has been racing in several races, is now out of them. He is troubled with bowed tendons and will be "tired" after a month's rest.

Jack Prior, who has ridden many winners on quality tracks, will leave for Chicago tomorrow for this city and will ride for Steve Judge at the local track. He has been racing at Harlem since Monday and will close his tour Monday.

Some of the boys who arrived yesterday in the Rowell car said that neither Durnell nor Hers nor Lynch would race their horses, but that they were declared that in all probability Durnell would come. If he does not, it will be a pity, as he is a good horse.

It is believed that the horse who was killed at the track yesterday was a gelding, and not a "speedy mare," as several local papers have stated. It was a gelding, and he was put into shape, if ever.

### ORANGE COUNTY FAIR ENJOYS BETTER DAY.

Attendance and Exhibits Improved Yesterday.

Fine Exhibition of Live Stock the Feature of the Show—Moss Constables Appointed to Enforce Game Laws—Wool Crop Inferior.

SANTA ANA, Oct. 2.—The attendance today at the county fair was considerably larger and the exhibits of stock, poultry and farm products were better than upon the opening day. The exhibit of live stock was the feature of the fair. Many spectators were attracted to the exhibit, which had been made in Southern California. Several cattle from the Riverside and Los Angeles counties are exhibiting prize herds and these, together with the many fine herds in the exhibit, make a splendid showing.

A special feature of the stock exhibit is a butter-fat contest which is now being held. Twenty-one cows have been entered in this contest, and it is proving to be a most interesting one. The first test was made this morning, and it was found that "Rocky Page's" cow, owned by E. E. Moore of Compton, yielded 10.45 pounds of milk, which tested 11.04 butter fat. According to Prof. Anderson of San Luis Obispo this is the highest percentage ever made in a similar test.

Tomorrow afternoon at 2 o'clock will be the big parade of stock. NEW DEPUTY CONSTABLES. Constable Henderson of Patterson yesterday filed notice with the County Clerk of the appointment of eight deputy constables, and upon investigation it is ascertained that a majority of the new appointees live outside of Patterson. The new appointees are Sherman Buck, A. O. Williams, J. H. Brakelink, John Phillips, C. Kraft, Frank Mills, B. Artheimer and Charles Smith.

COUNTY WOOL CROP. According to conservative estimates the wool crop of this county this season will aggregate 350,000 pounds, or 100,000 more than last year. The wool is in the hands of the wool growers, and the remaining seventy-five tons divided as follows in the various wool-producing districts of the county: Capistrano, 70,000 pounds; Santa Ana Cañon, 12,000 pounds; Santa Ana Cañon, 12,000 pounds; Santa Ana Cañon, 12,000 pounds.

The quality of the wool is said to be as good this year as usual on account of the absence of frost, and the price, so far, is less than the sheepmen had hoped it would be, ranging from 15 to 20 cents per pound. The clip is now practically completed and the wool is ready for the market.
